

2013 Women's Marriage, Fertility and Employment Survey

User Guide

- I. The Center for Survey Research (CSR), Research Center for Humanities and Social Sciences Academia Sinica reorganizes and releases the data offered by Directorate-General of Budget, Accounting & Statistics (DGBAS), Executive Yuan. The released files include user guide, Questionnaire, SPSS dataset, STATA dataset, ASCII dataset, SAS program and codebook.

II. Released File Description

1. User guide

userguide2013.doc	including released file description, guideline for data validation and usage, guideline for citation and contact us etc.
-------------------	--

1. Questionnaire

ques2013.pdf	2013 Questionnaire
--------------	--------------------

2. Datasets

women2013.sav	SPSS dataset
women2013.dta	STATA dataset
women2013.dat	ASCII dataset

3. Program

prog2013.sas	SAS Program for running women2013.dat
--------------	---------------------------------------

4. Code book

code2013.pdf	code book
--------------	-----------

III. Guideline for data validation and usage

- (1) 2013 Women's Marriage, Fertility and Employment Survey is the collateral project investigation of 2013 Manpower Survey.
- (2) Starting from June 2008, no longer has DGBAS released the information regarding the corresponding codes to the real names of regions, including county/township/city/district as well as village.
- (3) In view of sample representativeness and data consistency, parts of subgroups with a small number of samples or recognizable characteristics are not appropriate to employ the estimation of an individual county/city. Therefore, the number of each county/city should rely on the DGBAS's report.

- (4) The column widths of variable label and value description in the STATA are limited to 80 and 40 bytes, respectively, so the STATA dataset shows only the first 80 bytes as variable label, and the first 40 bytes as value description. In case of cut-off contexts, please see code book.
- (5) CSR has checked wild codes and out-of-range values, to validate and clean data. There is no doubt about data accuracy after the validation.
- (6) Please be attentive if “system missing” may not be listed in the variable value because of the design of skip question (N/A), missing/no response and so on.

IV. Guideline for citation

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
