

Taiwan's Election and Democratization Study, 2016-2020(IV): the Survey of Presidential and Legislative Elections, 2020 (TEDS2020)

User Guide

I. Overview

Principal Investigator	Chi Huang
Execution Institution	Election Study Center, National Chengchi University Institute of Political Science, Academia Sinica Department of Public Policy and Management, Shih Hsin University Department of Political Science, Soochow University Department of Political Science, Tunghai University Department of Global Politics and Economics, Tamkang University Department of Political Science, National Chung Cheng University Department of Political Science, National Cheng Kung University Graduate Institute of Political Science, National Sun Yat-sen University
Funding Agency	Ministry of Science and Technology
Span of Project Execution	2019-08-01~2020-07-31
Span of Investigation	2020-01-13~2020-05-30

II. Released File Description

1. User guide

userguide.doc	including released file description, guideline for data validation and usage, guideline for citation and contact us etc.
---------------	--

2. Questionnaire

TEDS2020E_Quen.pdf	Questionnaire
--------------------	---------------

3. Datasets

TEDS2020E_C.csv	Comma delimited file of Independence Cover
TEDS2020E_C.sav	SPSS dataset of Independence Cover
TEDS2020E_C.dta	STATA dataset of Independence Cover
TEDS2020E_Q.csv	Comma delimited file of Independence
TEDS2020E_Q.sav	SPSS dataset of Independence

TEDS2020E_Q.dta	STATA dataset of Independence
4. Program	
TEDS2020E_Q.sps	SPSS Syntax file of Independence
5. Codebook	
TEDS2020E_C.pdf	Codebook description of Independence Cover
TEDS2020E_Q.pdf	Codebook description of Independence

III. Guideline for data validation and usage

1. CSR has checked wild codes and out-of-range values, to validate and clean data. There is no doubt about data accuracy after the validation.
2. The column widths of variable label and value description in the STATA are limited to 80 and 40 bytes, respectively, so the STATA dataset shows only the first 80 bytes as variable label, and the first 40 bytes as value description. In case of cut-off contexts, please see questionnaire (or code book).
3. Weighting:
The survey data are weighted by raking with gender, age, education, and area. The population marginal distributions of these four variables are extracted from Demographic Fact Book, Republic of China published by the Ministry of the Interior, Republic of China, in 2019.

IV. Guideline for citation

Citation, based upon the requirement of various journals, theses or dissertations, can be revised.
